ABSTRACT

There are theories stated that human history normally involved with three dimensions, i.e. the past, present and future. Basically, most historians will prefer to describe the past human civilization without extended it to the present time. Therefore, this article will try to describe the contribution that can be played by the concept of jurisprudence in the development of the Malay-Muslim civilization. It is divided into several sections: First, an introduction to selected theories related to the focus of the study. Second, the concept of contemporary fiqh and its relationship with the resurgence of Islamic consciousness. Third, the contribution of contemporary fiqh in catalyzing Islamic civilization in Malaysia, and finally the study will be concluded with various suggestions.

Keyword: *Contemporary Fiqh, Muslim Civilization, Usul al-Fiqh, Syafi'i, Taqlid*
